G2 SLIM Interactive Flat Panel – Included Software

EShare Pro

EShare Pro is a set of multi-screen interactive software designed for sharing, wireless display and remote control between mobile devices (such as phones, tablets, laptops, etc.) and Interactive Touchscreen/TVs. Stream any media from your device to G2 Slim.

Nine devices can be projected on G2 SLIM and any device can be streamed to multiple G2 Slim units simultaneously. You can stream and control the content to G2 Slim on your computer through phone or tablet.

Each G2 Interactive Flat Panel comes pre-installed and ready to use with your PC, MAC, Chromebook, Android and IOS devices. Non-subscription based – updates automatically.

G2 Notes

- Available over any input or screen with floating launch button on side menu
- Can annotate, save, screenshot, and collaborate from any input, including OPS or external PC
- Can annotate, save, screenshot, and collaborate while streaming a wireless device via eShare Pro
- Can save directly to the cloud (whatever cloud account the customer chooses in set up)
- Notes and annotations can be transferred to a mobile device quickly with the scan of a QR code
- Both single annotation and multi-user annotation available

Oktopus Software

Interactive presentation and **collaboration** software. Work over ANY content or application. **Annotate – Collaborate – Present – Poll**

OKTOPUS allows you to annotate and work over or alongside any software application, your existing content, or over a web browser.

Use Existing Lessons. Open, edit and play SMART Notebook and IWB lessons exported from ActivInspire. Use OKTOPUS tools over the top of digital content including PDFs, Websites, images, etc.

Available in 42 languages and compatible with Windows and Mac, OKTOPUS gives everyone the flexibility to use the application, content and resource of their choice.

G2 Visual Alerts

Annual Subscription Required

From an internet-ready or mobile device, administrators can initiate text, image and video messages to enabled devices in the ecosystem.

- Initiate text, image and video messages to any enrolled device within seconds
- Manage and customize G2 Visual Alerts using G2 Communicator application
- Administrators can trigger alerts from any internet-ready device and/or via phone

G2 Control

Annual Subscription Required

G2 Control, (Powered by Radix), is a powerful Remote Device Management application pre-installed on every G2 Panel. Annual license required. (Annual Subscription Required)
