G2 VISUAL ALERTS

## *Alert Audio and Visual Announcements*

Announcements and Alerts have never been easier!

With G2 Visual Communicator software installed on your PC, Mac, or Android Interactive Flat Panel -
Alert and Announcement messages appear on the user device.

When the message is complete, the device will return to its previous screen.

G2 VISUAL ALERTS *commands* the screen of any internet enabled device with text, images, or videos initiated from anywhere at any time.
