

Clocks and Visual Displays

Reliable time displays that keep you on schedule and alert you visually when it matters most.

With Two-Way Communication

DIA - CDD1

Featuring a 23.8" HD screen, 20W speakers, microphone, and flashers, this all-in-one unit displays time, weather, schedules, logos, scrollable text, daily announcements, and even Visual Events!

IP Speaker with LCD Screen - CIPSPKMDC

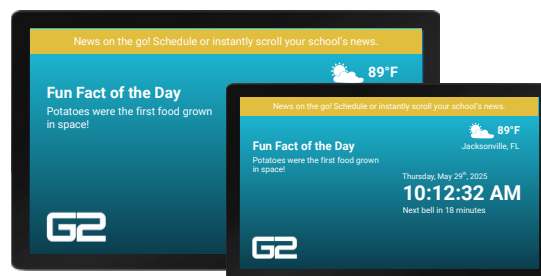

With built-in speaker and microphone, operators can communicate instantly, while the LCD display shows real-time info, eliminates separate clocks, and shows emergency alerts when needed.

Visual Display Only

CampusCast - CDD2L / CDD2S

CampusCast devices are perfect replacements for standard analog clocks in classrooms, offices, and cafeterias—delivering Visual Events anywhere they're installed. Ideal for any market, they can go anywhere inside your building!

*CDD2L requires PoE++

*CDD2S requires PoE

Visual Alert Capable

These devices have the ability to display alerts visually.

More Than Time. Always Alert.
