

RapidSOS 

G2 is RapidSOS Ready

Empowering Safety in Critical Moments

G2 is RapidSOS Ready - Providing schools several significant benefits:

Enhanced Location Accuracy

Quickly guides emergency responders to the exact site of an incident—whether a classroom, office, warehouse, or outdoor area.

Faster Emergency Response

Delivers immediate alerts in critical situations—whether medical emergencies, fires, or security threats.

Comprehensive Data Sharing

Enables campuses or organizations to share critical information, helping first responders prepare and coordinate more effectively.

Integration with Existing Systems

Seamlessly works alongside panic buttons, surveillance systems, and other emergency management tools.

Improved Safety Protocols

Enables the development and execution of more effective safety protocols and drills, ensuring organizations are fully prepared for potential incidents.

Enhanced Communication

Keeps all responders and staff informed with the same accurate, real-time information during an emergency.

Reassurance

Gives parents, staff, and the community confidence that your school or facility is committed to safety for everyone.

Reduced Liability

Shows that your campus or organization is proactively enhancing safety, helping minimize potential liability during emergencies.
